

Process Design Practices

by Cilliers Kruger

22 to 26 June 2015

**RadissonBlu Edwardian Grafton Hotel,
London, UK**

2015 PDP London: Course Attendees

25 Attendees in design and operational support functions from 15 companies in Europe, Canada and Jordan from wide range of industries including Oil& Gas, Chemical, Pharmaceutical and construction from design and operational

Quotes from attendees to this specific course (London UK 2015):

"I wish I did this course many years ago, there were many things I was missing and struggling with."

"This is the first time in three years that I have felt confident in the effectiveness of our discipline" (Proc. Engr.)

"Easier to troubleshoot and make sure of safe operation when you know what and why the design is."

"This has given me so much ammunition to be able to go back and challenge or interpret pre-existing designs."

"Having design ideas when doing operational support will be invaluable. Basis for making key assumptions."

Quotes from attendees to previous presentations:

"This course is a must for all process support and process design engineers."

"Great course from somebody with real life experience in design and plant operations and troubleshooting. You are never too old to learn how stuff really works!"

"This course cuts through all the fuzz universities taught us to give a PRACTICAL overview of process engineering. I would recommend it to all young engineers as a starting point for their careers. IT IS LIFE CHANGING!"
